Emergency Procedures

A Medical Duty Officer is on-call 24/7. The Security Dispatcher will contact the Medical Duty Officer for urgent medical problems occurring after hours, weekends, and holidays. On the phone the Medical Duty Officer will determine whether the medical disorder can be treated at home, at the Health Unit, or requires immediate evaluation at a hospital emergency room. The Medical Duty Officer will also contact local consultant specialists that might be needed.

If the medical problem seems an emergency that may require immediate hospitalization, go directly to a hospital emergency room. As soon as possible, contact the Medical Duty Officer, who will meet you in the emergency room.

Hospital de Diagnóstico Escalon is the closest hospital to the US Embassy, capable of treating most medical and surgical emergencies. (See map.)

If there is an acute gynecological or obstetrical problem, patients should go to the **Hospital de la Mujer**, also located in Escalon. (See map.)

If the medical emergency involves a young infant, who may require intensive care, go the emergency room of the **Hospital Ginecológico**, located in downtown San Salvador.

Pediatric patients (ages 13 months to 12 years) requiring intensive care will be hospitalized at **Hospital Bloom**, the tertiary care center for children in El

Salvador. Children not requiring intensive care will be hospitalized at Hospital de Diagnostico.

Shortly after arrival at Post, take a drive to learn how to get to these local hospitals.

If you need help getting to a hospital emergency room:

- 1) Call Priority Ambulance at the number noted above;
- 2) Call the US Embassy dispatcher;
- 3) Contact the Health Unit, if the emergency occurs during normal working hours.

The current Priority Ambulance fee for transport within the metropolitan area of San Salvador is \$100.00 plus charges for supplies used.

After arrival at an emergency room, inform the staff that you work at the US Embassy. If you have not already called the Medical Duty Officer, have the hospital staff contact the US Embassy. Carry your diplomatic carnet with you to confirm your affiliation with the US Mission in San Salvador. An official letter guaranteeing upfront payment of the hospital bills by the US Embassy will be given to the hospital.

In the event that a blood transfusion is needed, the Medical Duty Officer, using the American donor walking blood bank list, will contact donors from the US Embassy community.

If there is an incident involving Mission personnel, you should obtain the following information:

1. Name of victim
2. Agency
3. Extent of Injuries
4. Type of Accident
5. Whether there were others injured
6. Whether there was police involvement
7. Location of victim
8. Apparent medical condition of those injured
9. Medical treatment being administered

Phone the Security Dispatcher at the US Embassy, who will contact the RSO, MGT officer on duty, and the Medical Duty Officer.

AMBULANCE SERVICE

Priority Ambulance

Address: 85 Av. Nte. #724, Colonia Escalon
Telephone: 2264-7911, 2264-7954, 2275-9800

Cuantas veces al dia tomo este medicamento?

How many pills a day?

Cuantas pastillas al dia?

I need a First-Aid kit.

Necesito un equipo de primeros auxilios.

PAYMENT:

Can I have a receipt? Puede darme una factura?

PAYMENT FOR MEDICAL CARE

The employee is responsible for the costs of outpatient doctor and specialty visits, except when these visits represent continuing care from a recent hospitalization. The employee is also responsible for the costs of all laboratory tests, x rays, etc. that arise from outpatient visits. Employees should submit medical claims to their insurance carrier to receive the allowable reimbursement once the deductible is met.

The Health Unit issues an Authorization for Medical Services (DS-3067) form for overseas employees and eligible dependents requiring hospitalization. The DS 3067 allows MED to pay up front for usual and customary expenses for hospitalization and related outpatient care. Despite this up front payment, employees are required to file medical claims with their medical insurance. The reimbursement received in settlement of the claims must be forwarded to the agency collection office. For DOS employees, this section is the Financial Management Office. Of note, insurance companies invoke the 24-hour rule for hospitalizations. If the insurance has listed the diagnosis or procedure as requiring less than 24 hours of hospitalization, it will be considered the same as an outpatient visit and the patient will have to pay the bill and collect a reimbursement from his insurance company

MED serves only as the secondary payer. MED pays only the residual amount remaining after the employee's health insurance has paid. For this reason employees are strongly advised to participate in one of the Dept. of State recommended health insurance programs.

LOCAL HEALTH CARE PROVIDERS

The Health Unit has compiled the following list of health care providers. Practitioners are included after review by the Regional Medical Officer or Nurse Practitioner. The majorities have had training overseas, are familiar with U.S. medical care, and have a reasonable command of English.

The list is not meant to be exhaustive or definitive nor does it represent either a guarantee of competence or endorsement by the Department of State or the US Embassy. It does indicate that the Embassy Community has utilized them in the past. Retention on this list depends upon a combination of factors including availability, training, and positive assistance in previous consultations, etc. Patient input, both positive and negative, regarding experience with local health care providers, is always welcomed as it provides additional information to assist the Health Unit making decisions about expanding or contracting the list. The Health Unit provides a questionnaire to assist you in reporting your experience.

PHYSICIANS

POST MEDICAL ADVISOR

Dr. Miguel Moreno

Address: Edificio Villavicencio, 2a Planta, Paseo General Escalón y 99 Ave Norte, “Gastroclinica Escalon”
